Customer ID: **9222**
Certificate: **35-A-0348**
Site: 001
CLYDE HORST

Type: ROUTINE INSPECTION
Date: 12-JAN-2015

2.40(b)(2) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

A female Maltese with tag number 008 has areas of hair loss on her left side and around the base of her tail. A female Bichon with tag number 373 also has areas of hair loss on her front legs above the paws. The skin in the areas of hair loss on both dogs appears reddened and all areas have small raised reddish colored lesions present. The facility representative is currently treating the areas of hair loss with a topical spray, but has not yet sought veterinary attention for the dogs. Failure to have the issue addressed by the attending veterinarian can result in pain and discomfort to the animals. The animals must be evaluated by the attending veterinarian and the prescribed treatment must be administered.

2.75(a)(1) REPEAT

RECORDS: DEALERS AND EXHIBITORS.

The facility record of dogs on hand (APHIS Form 7005) do not contain all the required acquisition information for block letter I. Failure to document the required information does not allow for the proper tracking of the dogs. All the required information pertaining to the acquisition of the dogs must be documented on the facility record of dogs on hand to ensure that the facility records are complete and accurate.

Inspection and exit interview conducted with licensee.

End of report.
