Date: 09-MAR-2015

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Licensee was not able to locate the Program of Veterinarian Care for today's inspection. The Program of Veterinarian Care is a crucial tool that all facilities must maintain to ensure that the animals receive adequate and timely veterinary care for all health issues. Licensee must ensure that he has a detailed Veterinarian Care Plan, in writing, for all treatments, medications, vaccinations, etc. This plan must be approved by the Attending Veterinarian and updated at least once a year (annually).

Correct By: 3/23/15

3.127(d)

FACILITIES, OUTDOOR.

There is an area of perimeter fence, approximately 7' in length, which measures 5'8" in height around a bobcat enclosure. This perimeter fence has been constructed this way for several years and the ground has settled causing the perimeter fence to sink. The Licensee expressed interest in re-building this entire area. The enclosure containing the bobcat is fully enclosed with a top. Perimeter fencing must be high enough to act as a second containment area for the animal enclosed and must be a minimum of 6'. Licensee must ensure that all areas of perimeter fencing are at least 6' in height for all bobcat areas or have the fencing and height approved through the administrator.

Correct By: 4/9/2015

Inspection and Exit interview conducted on 3/9/2015 with Licensee and Shannon Sebera, Animal Care Inspector.

Inspection sent by mail on 3/9/2015 due to mechanical issues.
