Contingency planning.

The contingency plan (disaster plan) could not be located at time of the inspection. Dealers, exhibitors, intermediate handlers, and carriers must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession). It is important to have a plan in place and readily available for reference in case of an emergency .
