### 3.13(a)(1)

#### Veterinary care for dogs.

There are no records indicating the last visit of the attending veterinarian (AV). The AV advised that a site visit has not been completed since 2023 which is well past the 12-month requirement. Regularly scheduled site visits are essential in determining if all aspects of animal care (nutrition, health, environment, water, and air quality, etc.) are being provided to the dogs. The licensee must have regularly scheduled visits, not less than once every 12 months, by the attending veterinarian to the facility where animals are kept, to assess and ensure the adequacy of veterinary care and other aspects of animal care and use.

To be corrected by 30-May-2025

This inspection and exit interview were conducted with the facility representative.
