**Facilities, outdoor.**

The squirrel and the foxes are currently housed in outdoor enclosures that are not enclosed by a 6 foot perimeter fence. The squirrel enclosure perimeter fence has a section that is only 5 feet tall, and the fox enclosure perimeter fence is only 4-5 feet tall. Perimeter fences must be constructed and maintained in such a way that they prevent animals and unauthorized persons from going through or under the fence, they can also act as a secondary containment for animals in the facility and they protect the health and well-being of the animals.

This inspection and exit interview were conducted with facility representative.
