

Inspection Report

Colorado Pumpkin Patch
2780 Crestwood Drive
Monument, CO 80132

Customer ID: **330464**

Certificate: **84-C-0151**

Site: 001

COLORADO PUMPKIN PATCH

Type: ROUTINE INSPECTION

Date: 10-MAR-2015

3.125(a)

FACILITIES, GENERAL.

(a). Structural Strength. Chicken wire is attached along the inside of the front fence in the outdoor housing facility for 2 goats and 2 Alpacas. The chicken wire is pushed upward with ripped broken sharp points protruding towards the animals that can cause injuries. Inside the barn chicken wire is wrapped around the feeders and has ripped sharp points that can cause injuries to the animals.

Maintain all indoor and outdoor housing facilities so that it is structurally sound and in good repair to protect the animals.

To be corrected by: March 31, 2015

3.125(c)

FACILITIES, GENERAL.

(c). Storage. Inside the barn is an uncovered can of dry feed for the 2 goats and 2 Alpacas. The uncovered feed is not being properly stored and can become moldy or contaminated by vermin causing health issues for the animals.

Store all supplies of food and bedding so that they are adequately protected against deterioration, molding or contamination by vermin.

To be corrected by: Corrected during time of inspection

Inspection and an exit briefing was conducted with Bengetta Chapman, Owner.
