

Inspection Report

Bonnie Springs Zoo
16395 Bonnie Springs Road
Blue Diamond, NV 89004

Customer ID: **325447**
Certificate: **88-C-0196**
Site: 001
BONNIE SPRINGS ZOO

Type: ROUTINE INSPECTION
Date: 01-MAR-2017

3.125(c)

FACILITIES, GENERAL.

Feed storage room:

There was a large bag of timothy hay pellets with about a 6-8 inch sized hole which allowed the pellets to spill out onto about a 5 square foot section of floor space beneath the food rack. Several other large bags of feed for various regulated animals had evidence of chewing or small tears in them. Additionally, a bag of sweet feed used for non-regulated animals was opened and on the rack next to the other bags.

Open feed bags attract rodents and other pests which may transmit disease and lead to contamination/deterioration of the feed. There was evidence of rodent feces located on the floor as well as on the outside of a few bags of feed at the time of inspection.

Supplies of food must be stored in facilities which adequately protect such supplies against deterioration, molding or contamination by pests to ensure the health and well-being of all animals. A system of food storage which adequately protects the supplies of food for all animals must be in place.

Correct by 03/15/2017.

3.131(c)

SANITATION.

Kitchen/Food Preparation Building:

- There was a heavy accumulation of dust along the window sills in this room as well as inside a cabinet used to store animal medications and supplements.
- The two refrigerator/freezers used to store food for regulated animals had several areas with a moderate buildup of a sticky, brownish-red residue from leaked juices of meats and vegetables.

Premises used to store animal foods, medicines and other animal use areas must be kept clean to protect and
