3.11(c)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Housekeeping for premises. Veterinary products are being stored in various locations in the workshop, near stacked feed, on tops of whelping enclosures, and on a table with miscellaneous items. Storing veterinary products on tops of whelping boxes or near feed may cause contamination or injury to the dogs if the products fall or spill into enclosures. Veterinary products must be stored in a safe and clean manner such as in a cabinet or on shelves so the products remain relatively clean and safely away from animals, feed, tools, and clutter. Correct by storing veterinary products properly away from animals, feed, tools, and clutter.
