

Inspection Report

Dolphin Research Center Inc
58901 Overseas Hwy
Grassy Key, FL 33050

Customer ID: 3178

Certificate: 58-C-0303

Site: 001

DOLPHIN RESEARCH CENTER INC

Type: ROUTINE INSPECTION

Date: 21-OCT-2014

3.103(c) REPEAT

FACILITIES, OUTDOOR.

The facility has replaced/repared the perimeter fence with the exception of the south side near the shoreline. The licensee is in the process of obtaining bids to complete the repairs but has not made any decisions to date. This portion of the fence line still does not extend all the way to the shoreline. Unauthorized persons and animals can easily gain access into the facility from the adjacent property.

For natural seawater facilities, the perimeter fence must prevent access by animals and unauthorized persons to the facility from the abutting land, and must encompass the land portion of the facility from one end of the shoreline as defined by low tide to the other end of the shoreline as defined by low tide.

The exit interview was conducted with the President & CEO

Additional Inspectors

Mercado Mario, Veterinary Medical Officer
