FACILITIES, GENERAL.

The goat and sheep petting zoo pen allowed goats to slip out as customers entered and exited, and no longer contained the animals. During inspection, three out of four goats momentarily escaped and were returned to the pen by facility personnel. All enclosures must be structurally sound and maintained in good repair to protect the animals from potential hazards and injury and properly contain the animals

Correction date: 2 March, 2018

This inspection and exit interview were conducted with facility representatives.
