Certificate: **14-R-0200**
Site: 002
ACCURO FARMS INC

Type: ROUTINE INSPECTION
Date: 24-MAY-2023

2.32(c)(1)(iii)

Personnel qualifications.

A review of records for animal ID#44 26436 showed that the post -op observations were not being conducted at a frequency as described in the IACUC approved protocol. The protocol stated that for 3 days following a procedure the pig would be examined twice daily. The date of the procedure was 1/5/23 and according to the record only one clinical observation was recorded for the second day (1/7/23). This could negatively affect the animal if post-procedure care and observations are not conducted at the required intervals. Personnel must conduct and document observations at a frequency in accordance with the IACUC approved protocol. The facility must correct this issue.

*****Correct by June 2, 2023

This inspection and exit interview were conducted with the facility representatives.
