

Inspection Report

Rhonda Gear
P. O. Box 126
Galt, MO 64641

Customer ID: **40142**
Certificate: **43-B-3613**
Site: 001
RHONDA L. GEAR

Type: ROUTINE INSPECTION
Date: 18-SEP-2014

3.4(c)

OUTDOOR HOUSING FACILITIES.

(c) Construction

* An enclosure containing two dog houses (housing two dogs total) had entrances that were excessively chewed around the edges and significantly opening the entrance area. These excessively chewed entrances could no longer be cleaned and sanitized and were no longer in good repair. Licensee must establish and maintain a maintenance program to ensure that all surfaces in contact with the dogs are repaired, replaced or removed when worn out to allow for proper cleaning/sanitization to occur and to prevent injury to the dogs.

** To be corrected by: 9/29/14 (verbally instructed at time of inspection)

3.11(d)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

(d) Pest control

* Upon entering the inside of the shelter building (housing 25 dogs and 24 puppies), flies swarmed around the inspectors head. Three fly strips were hanging up. However, they were completely filled with flies. Flies were also observed in and on the dog enclosures. An effective program to control insects that can affect the dogs must be established and maintained at all times to reduce disease/contamination hazards, minimize stress and discomfort to the dogs.

** To be corrected by: 9/20/14 (verbally instructed during inspection)

* Inspection and verbal exit interview conducted on 9/18/14 with facility representative.
