Type: ROUTINE INSPECTION  
Date: 05-SEP-2014

---

**3.138**

### PRIMARY CONVEYANCES (MOTOR VEHICLE, RAIL, AIR, AND MARINE).

At the time of this inspection the trailer was noted to be in need of repair. As you first walk into the trailer the floor is sagging. Due to the fact that pigs have to walk over this area to get out into the show area this will need to be addressed. There was also a white material on the walls and covering the wheel wells. One piece had been pulled off the wall and the areas along the base of the wheel wells had been chewed and were pulling away from the metal. There are now jagged edges present. To ensure the safety of these animals this trailer will need to be addressed.

\*\*\*To Be Corrected By: Sept 20, 2014

This inspection was conducted at the North Haven Fair, Washington Ave, North Haven, CT.

An exit interview was conducted with the licensee.
