JANET SYPERDA

Type: ROUTINE INSPECTION
Date: 25-JUN-2015

3.126(d)

FACILITIES, INDOOR.

The new runs extending outside of the indoor housing do not have a perimeter fence around it. A perimeter fence of at least 6 feet in height and no closer than 3 feet from the outside runs needs to be installed. This perimeter fence acts as a secondary containment and prevents wild animals direct access to the servals.

Correct by: 01/August/2015
