ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The kennel facility consists of an outdoor housing area and one sheltered building. Throughout the outdoor housing area there are two animals, one adult and one puppy which need to be evaluated by the attending veterinarian. The adult is an eight (8) year old Shiba Inu male named Max, ID # 205. The animal's left eye is cloudy over the entire surface. The dealer does not have any written documentation of the being previously evaluated. The other animal is a ten (10) week old female Shiba Inu weaned puppy, #57-15F. The animal has hair loss areas on its neck throughout its torso and both legs. The dealer stated the animal had been evaluated by the attending veterinarian for other issues approximately a month earlier. The dealer does not have any written documentation of the evaluation or treatment. Both animals must be evaluated by the attending veterinarian and the dealer must maintain written documentation of the evaluation and all treatment to protect their health and welfare.

Affects two adults. Correct by June 19, 2015

The inspection and exit briefing was conducted with the facility representatives

This is an electronic copy of the inspection report dated June 11, 2015
