Type: ROUTINE INSPECTION
Date: 28-FEB-2023

2.78(a)

Health certification and identification.

In October 2022, the licensee transported a spider monkey (less than 6-months-old) to a sale located out of state, where the animal was sold. The licensee did not get a health certificate for this monkey. A health certificate from a licensed veterinarian within 10 days of transporting a nonhuman primate in commerce is required to ensure the animal appears free of any infectious disease or physical abnormality which would endanger the animal during transport. Correct by obtaining health certificates for nonhuman primates from a licensed veterinarian no more than 10 days prior to transporting the animals in commerce. Correct from this day forward (February 28th, 2023).

This inspection and exit interview were conducted with the licensee.
