

Inspection Report

Siess Ranch L L C
2406 State Hwy 63
Seneca, KS 66538

Customer ID: 27916

Certificate: 48-A-2155

Site: 001

Siess Ranch L L C

Type: ROUTINE INSPECTION

Date: 19-JUL-2016

3.1(c)(3) REPEAT

HOUSING FACILITIES, GENERAL.

The outdoor hutch style enclosures housing ten adult dogs had a build-up of organic material on the interior surfaces of the shelters. The majority of the floors, and walls had a brown greasy residue.

The build-up of organic material can harbor disease. The licensee must sanitize in accordance to 3.11(b), which states that used primary enclosures must be sanitized at least once every two weeks or as often as necessary to prevent the accumulation of dirt, debris, foot waste, excreta, and other disease hazards.

3.4(c)

OUTDOOR HOUSING FACILITIES.

The wooden parts of the shelters in the outdoor hutch style enclosures housing ten adult dogs had scratched and chewed surfaces that were no longer impervious to moisture.

Scratched and chewed surfaces can harbor disease and cannot be properly cleaned and sanitized. The licensee must construct the enclosures and shelters so they are impervious to moisture. All surfaces must be maintained on a regular basis. Surfaces that cannot be readily cleaned and sanitized must be replaced when worn or soiled.

TO BE CORRECTED BY: September 19, 2016

The inspection and exit briefing were conducted with the licensee.
