Site: 001

LUPA GAME FARM INC

Type: ROUTINE INSPECTION

Date: 19-AUG-2014

2.131(c)(1)

HANDLING OF ANIMALS.

The marmosets have been moved into a new enclosure. This enclosure has three doors and two sides that are exposed to the public. The two sides have overlapping wire mesh present that does not allow the public direct access to the primates. Two of the three doors are covered with plexiglass. However, the other door is only covered with a ¼ mesh. This does allow for the public to have direct access to these primates. To ensure the safety of the primates and the general public this door will need to be addressed.

***To Be Corrected By: August 24, 2014

3.125(a)

FACILITIES, GENERAL.

At the time of this inspection it was noted that the fisher cat enclosure was in need of attention. There is an ~ 1 x 3 hole in the wood paneled back, right wall, just above the rock structure. There is a 2 x 2 wire mesh along the entire back wall. But to ensure that this animal is securely contained, this hole will need to be repaired.

***To Be Corrected By: August 24, 2014

3.131(a)

SANITATION.

During this inspection it was noted that the coatimundi enclosure was in need of attention. The areas behind the den box and along the left side of the enclosure have an accumulation of feces and fur present. To ensure that the enclosure is cleaned on a regular basis these areas will need to be addressed.

***To Be Corrected By: August 22, 2014

An exit briefing was conducted with the licensee.
