Type: ROUTINE INSPECTION

Date: 17-FEB-2022

3.125(a)

Repeat

Facilities, general.

There is an electric extension cord running up the back right corner on the inside of the genet enclosure. The genet has direct access to several feet of extension cord that is plugged in and providing power to the lights at the top of the enclosure. The genet may be seriously harmed, injured, or perhaps even die should it claw, bite, or otherwise compromise the cord. Housing enclosures shall be maintained to protect the animals from injury.

Correct by: February 25, 2022

3.131(a)

Sanitation.

There is an excess of hair and dust in the Fox room. Clumps of hair are accumulated on and around the enclosures. A good layer of dust and debris is present on the enclosures and other items in the room. One of the New Guinea singing dogs has hair and urine matted to the front of his enclosure. Accumulations of hair, urine, and other debris may harbor disease hazards, posing a threat to animal health. Enclosures and housing facilities shall be cleaned as often as necessary to minimize disease hazards and reduce odors.

3.131(c)

Sanitation.

There is an excessive amount of clutter and stored items in the animal housing areas. Such that there is minimal space to work with and access the animals. Optimal animal welfare is hindered in such cramped quarters. Premises shall be kept clean and in good repair to protect the animals from injury and to facilitate prescribed husbandry practices.

Correct by: March 18, 2022

This inspection and exit interview were conducted with the president.
