Athens Clarke Government
Leisure Services PO Box 1868
Athens, GA 30606

Customer ID: **3173**
Certificate: **57-C-0005**
Site: 001
Athens Clarke Government

Type: ROUTINE INSPECTION
Date: 24-OCT-2024

3.127(d)

Facilities, outdoor.

The perimeter fence, at an access gate facing the parking lot at the front of the facility, is inadequate as follows:

- To the left and right of this gate, the fence is not the required 8 feet (96 inches) in height for dangerous animals. Instead, the fence measures approximately 92 to 94 inches for a few feet in both directions away from the gate.
- There is a significant gap below the right side of the gate ranging from 5 to 7 inches in height which doesn't adequately prevent other animals from passing through it.

The lack of an adequate perimeter fence presents a safety risk to the animals within the facility in that there isn't an adequate secondary containment system to hold animals that may escape their primary enclosures or a sufficient barrier to keep animals and unauthorized persons out. The facility must ensure they maintain in good repair a continuous 8-foot-high perimeter fencing for dangerous animals (bears). Such fences must be at least 3 feet in distance from the primary enclosure for animals housed outdoors.

Correct by: December 25, 2024.

This inspection and exit interview were conducted with a facility representative.
