Certificate: **74-C-0371**

Site: 001

MOSTYN ENTERPRISES INC

Type: ROUTINE INSPECTION

Date: 15-APR-2014

3.125(a)

FACILITIES, GENERAL.

The chainlink section of the trapping pen is in need of repair as a support board is broken and the chainlink does not reach the ground . An animal may become trapped in the gap at the bottom of the fence and the fence line is no longer structurally sound due to the broken board. The perimeter fence next to the tunnel is in need of repair. A top rail is bent and there is a section of fence that is no longer secured to the support poles. These damaged areas may result in animal injury or escape and must be repaired and maintained in good repair to protect the animals from injury and to contain the animals.

CORRECT BY : 5-15-14

The inspection and exit briefing was conducted with the maintenance manager .
