

Inspection Report

JAWS AND PAWS SANCTUARY

1818 L St., Unit 807
Sacramento, CA 93510

Customer ID: **507895**

Certificate: **93-C-1173**

Site: 002

Jaws and Paws Sanctuary

Type: NEW SITE INSPECTION

Date: 05-OCT-2023

3.1(c)(1)

Housing facilities, general.

In the barn housing 3 dogs, the bottom pipes of the stalls were excessively rusty and there was a hole in the wood wall. Surfaces in housing facilities must be constructed and maintained to allow them to be readily cleaned and sanitized. Interior surfaces that come in contact with dogs must be free of excessive rust that prevents the required cleaning and sanitization and be free of jagged edges and sharp points that might injure the animals.

3.3(e)(1)(iii)

Sheltered housing facilities.

In the sheltered housing for 3 dogs, the walls were unsealed wood, which absorbed water and therefore is not impervious to moisture as required by the Animal Welfare Act. Wood surfaces cannot be effectively cleaned and sanitized as required, which impervious surfaces can be. All walls, boxes, houses, dens and other surfaces in contact with the animals must be impervious to moisture.

3.4(b)

Outdoor housing facilities.

In the outdoor enclosures housing twenty wolf-dogs, there was no shelter structures available to the animals, although natural shade was present. Facility needs to provide shelters for the wolf-dogs, especially before the weather turns rainy and cold. Shelters in outdoor facilities for dogs must contain a roof, four sides and a floor, providing dogs with adequate protection and shelter from cold and heat, direct effect of wind, rain or snow, with a wind and rain break at the entrance and bedding appropriate to the temperature.

This inspection was a site approval inspection.

This site is not ready for approval to conduct activity covered under your current Animal Welfare Act License.

Conducting regulated activities at a non-approved site is a violation of the Animal Welfare Act.
