Certificate: **43-B-3727**  
Site: 004  
PET WAREHOUSE, INC.

Type: ROUTINE INSPECTION  
Date: 26-APR-2017

### 2.40(b)(2) CRITICAL

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

On April 12, 2107 a juvenile bunny was noticed by store staff to have bloat and "wet tail." According to the medical record the treatment plan was to "put wet tail meds in H2O every day. Needs cilantro and oats." However, there were no notations in the record that these treatments were given. A veterinarian was not contacted about the rabbits condition and it died on 4/17/2017. Improperly treated medical conditions can worsen and even result in death. The licensee must ensure that sick and injured animals receive proper medical treatment under the supervision of a veterinarian. Additionally, licensee shall ensure that all diagnosis and execution of any medical treatments are documented.

This inspection and exit interview were conducted with Store Manager.

#### Additional Inspectors

Graves Alicia, Animal Care Inspector
