2.31(c)(3)

Institutional Animal Care and Use Committee (IACUC).

The IACUC conducted an animal facility inspection and a program review on September 30, 2024 and submitted a report to the Institutional Official (IO), however, the report did not include signatures from a majority of the IACUC members. Reports submitted to the IO shall be reviewed and signed by a majority of the IACUC members to confirm agreement with the inspection findings. Failure of a majority of the IACUC members to review the findings and sign the report could lead to the omission of a minority view or a deficiency in the facility's animal use program.

Correct by having the semiannual report reviewed and signed by a majority of the IACUC members before submission to the IO.

Correct by: March 12, 2025.

This inspection and exit interview were conducted with facility representatives.
