Certificate: **43-A-4742**
Site: 001
DEBRA S MCCOY

Type: RE-LICENSE INSPECTION
Date: 21-DEC-2021

3.13(a)(3)

Veterinary care for dogs.

The Program of Veterinary Care (APHIS Form 7002A) is incomplete. More specific instructions for rabies vaccination of adult dogs is needed; the current instructions are "as determined by vet." There are no sampling instructions (frequency of testing; number or percentage of dogs) for diagnosis of heartworm or intestinal parasites. There are dewormers listed on the Program of Veterinary Care and on a separate medication list, but the instructions are not completely clear on whether the dewormers are meant for adults or puppies. A couple of the dewormers do not have dosing instructions or when they should be given. Incomplete or unclear instructions for medications and vaccines may result in inappropriate or inadequate treatment of the dogs. A complete Program of Veterinary Care for dogs must be developed, documented in writing, and signed by the Attending Veterinarian.

To be completed by December 31, 2021.

This is a 1st Re-License Inspection for a Class "A" license. The inspection and exit briefing were conducted with the applicant.

The applicant has 2 more opportunities for inspection by January 17, 2022, to bring all items into compliance. Otherwise,
