#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Records reviewed did not support the use of appropriate methods to prevent, control, diagnose, and treat diseases and injuries. Five out of twelve animal records reviewed at this inspection indicated that treatment was delayed in animals identified to veterinary personnel for evaluation. Treatments, if directed, were not recorded as having been performed. Appropriate and prompt treatment must be initiated and recorded to assure the best outcome for the animals. Additional preventive measures may also be indicated. Correct: This point forward

An exit briefing was conducted with the facility veterinarian.
