Lampasas, TX 76550

Customer ID: **41377**
Certificate: **74-B-0640**
Site: 001
Triple C Ranch Inc.

Type: ROUTINE INSPECTION
Date: 27-MAY-2015

3.75(c)(1)

HOUSING FACILITIES, GENERAL.

The wooden base of the shelter box inside the ringtail lemur enclosure #11 is rotted and is detaching from the main structure of the box. The shelter box is not structurally sound and poses a risk of injuring the animals contained. The shelter must be kept in good repair to prevent any potential injuries to the animals contained.

Correct by June 11, 2015

3.125(d)

FACILITIES, GENERAL.

The kangaroo self-feeder has an excessive accumulation of old food and excreta around the outside of the food receptacle. The food and excreta has become whitish in color. The buildup of animal and food waste can attract pests to the facility and promote disease hazards to the animals contained. Eliminate the excessive buildup of animal and food waste through proper disposal from the facility as often as necessary to minimize vermin infestation, odors, and disease hazards.

Correct by June 1, 2015

Inspection and exit interview conducted by APHIS personnel with licensee.
