Certificate: **42-B-0182**
Site: 001
STEVE KRUSE

Type: ROUTINE INSPECTION
Date: 15-NOV-2016

2.40(b)(2) DIRECT REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

There is one female yellow Lab (Tattoo # 85) with a large swelling on her chest. The swelling is large, approximately five to six inches in diameter, firm, moderately red, and warm to the touch. There are several superficial abrasions/scratches on the surface of the swelling. Some of the abrasions are scabbed over and some of them are open, red and moist. The facility representative stated that they gave penicillin yesterday, however there was no documentation stating that the swelling had been identified by the facility or that the animal was treated.

There is one female Old English bulldog (Tattoo # 358) with watery fecal material and staining on her rear end. The fecal material/staining extends from under her tail down between her hind legs. The fecal material is extremely watery and reddish-brown in color. The haircoat is extremely wet from the fecal discharge. The skin in the area of the wet discharge is mildly red with a few small (approximately 1-3 mm in size) open sores. There is a significant amount of watery/loose, bloody stool under the enclosure.

Conditions such as these can be painful and can lead to further health complications. The animals listed above must be examined by a licensed veterinarian in order to ensure that an accurate diagnosis is obtained and an appropriate treatment plan is developed and followed. This information, including the diagnosis, treatment and resolution of the condition, must be documented and made available to the inspector upon request. The licensee must ensure that all animals receive appropriate veterinary care at all times.

The following two dogs identified on the inspection report dated September 26, 2016 were previously housed at site # 002 and are currently housed at site # 001:

Female American Bulldog (Tattoo # 49) has been evaluated by a licensed veterinarian.

Female Old English Bulldog (Tattoo # 06) has been evaluated by a licensed veterinarian and received treatment.

This inspection and exit interview were conducted with the facility representatives, licensee, Heather Cole, VMO, Kelly Maxwell, ACI, and Corbin Ranslem, ACI.
