Detroit Lakes, MN 56501

Customer ID: **2847**

Certificate: **41-A-0021**

Site: 001

MICHELLE SONNENBERG

Type: ROUTINE INSPECTION

Date: 02-OCT-2014

3.1(f) REPEAT

HOUSING FACILITIES, GENERAL.

An area of standing water continues to be present along the back wall and under two enclosures housing four dogs in the east end building. The water is dark, dirty and mixed with excreta. The licensee uses a wet/dry vacuum daily to eliminate the water. However, once daily does not eliminate the water to prevent it from accumulating. Failure to provide an adequate drainage system increases the risk of odors, insects and disease hazards. Eliminate the water more frequently and/or develop a method to prevent the accumulation of water.

Inspection and exit interview conducted with the licensee.

End of report.

Additional Inspectors

Sime Debra, Veterinary Medical Officer
