Type: ROUTINE INSPECTION
Date: 19-MAY-2014

2.75(a)(1)

RECORDS: DEALERS AND EXHIBITORS.

* Official USDA dog on hand sheets (7005's) had 39 dogs recorded, but there were 45 adult dogs counted by the inspector. When the records and dogs at the facility do not match it makes the records incomplete. Complete and accurate records are needed to ensure each animal's identity can be known with certainty and to facilitate the ability to trace dogs. The licensee must maintain complete and accurate records of all dogs at all times at their facility. Correct by 6/19/14.

3.1(c)(3)

HOUSING FACILITIES, GENERAL.

There is a mixture of dirt, grease and other excreta accumulating on the fiberglass wall board in three enclosures and on two metal entryway doors. Four dogs are in contact with the affected areas located in sheltered housing. The affected area covers approximately 20 to 30 percent of the fiberglass wall board and metal entryway doors. Cleaning and sanitization of surfaces that are in contact with dogs is necessary to prevent an accumulation of excreta and reduce disease hazards. Unsanitary living conditions and potential transmission of diseases exists when surfaces are not cleaned and sanitized. The licensee must ensure that all surfaces are spot cleaned on a daily basis and sanitized in accordance with Sec. 3.11(b) of this subpart to prevent accumulation of excreta and reduce disease hazards. Correct by 5/22/14.

* Facility inspection done on 5/19/14 & exit briefing done on 5/21/14 were conducted with the licensee.
