Ludlow, MA 01056

Customer ID: **6358**
Certificate: **14-C-0051**
Site: 001
Lupa Game Farm Inc

Type: FOCUSED INSPECTION
Date: 05-AUG-2025

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

At the time of inspection, expired bottles of Albon (sulfadimethoxine) (expired July 2022), pyrantel pamoate (expired October 2020), and xenodine (expired December 30, 2020) were discovered at the facility in a refrigerator used for medication storage, ready for potential use in animals. The use of expired medications does not constitute the standard of care as they may not be safe or effective. The facility must ensure that medications are properly disposed of before the expiration date is reached. This issue was corrected at the time of the inspection. To remain corrected after August 5, 2025.

3.31(c)

Sanitation.

There were numerous flies (too numerous to count) located in an enclosure housing two guinea pigs, in close proximity to the animals. Flies can transmit diseases and cause discomfort for the animals. The facility must ensure that a safe and effective program for the control of insects, ectoparasites, and avian and mammalian pests is established and maintained. Correct by August 19, 2025.

3.125(a)

Repeat

Facilities, general.

A large section of fencing wire was pulled away and upturned from the bottom of the fence in a pig enclosure, exposing numerous sharp points and jagged edges near eye level with the animals. Sharp points and jagged edges have the potential to injure animals. The facility must ensure that outdoor housing facilities are maintained in good repair to protect the animals from injury.

This inspection and exit interview were conducted with facility representatives.
