Certificate: **52-C-0309**
Site: 001
Earthquest

Type: ROUTINE INSPECTION
Date: 25-JUN-2024

3.158(c)

Cleaning, sanitization, housekeeping, and pest control.

An area of the facility used to store food and enrichment items had an excessive accumulation of debris and general clutter, including tools and construction materials. This debris covered a large portion of the walls and floors, preventing thorough cleaning of the area and inspection for pests. Trash and debris can attract pests and negatively impact the health and well-being of animals, especially when food and enrichment items are potentially impacted. Correct by July 9, 2024, by ensuring that all premises and surrounding grounds are kept clean and in good repair to reduce or eliminate breeding and living areas for rodents, pests, and vermin. Make sure that premises are kept free of accumulations of trash, junk, waste products, and discarded matter.

This inspection and exit interview were conducted with a facility representative.

Additional Inspectors:

Michael Brooks, VETERINARY MEDICAL OFFICER

Ronald Richardson, VETERINARY MEDICAL OFFICER
