SUISUN MARSH NATURAL  
HISTORY ASSOCIATION

Type: ROUTINE INSPECTION

Date: 05-MAR-2024

---

### 2.40

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The facility has yet to develop a written program of veterinary care for the avian species on-hand at the facility. The written program of veterinary care affirms both entities (facility and attending veterinarian) have a clear understanding of their respective roles to provide appropriate care for the species housed. The facility should ensure that the written program of veterinary care is available for review during all USDA inspections, with the documented arrangements to include regularly scheduled visits to the premises of the facility.

Correct by March 26, 2024.

### 2.134

#### Contingency planning.

The Contingency plan available for review at the time of inspection was inadequate. The current plan describes facility evacuation but does not list other reasonably anticipated emergencies or situations that trigger implementation of the plan, the specific tasks/responsible person(s) for the tasks, the specific resources needed to perform the task, or how response and recovery will be handled.

Per this section, exhibitors must develop, document, and follow an appropriate plan for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster, one which could reasonably be anticipated and expected to be detrimental to the health and well-being of the animals in their possession. The facility shall ensure an adequate contingency plan is developed and followed in case of an emergency.

Correct by March 26, 2024.

### 3.154

#### Environment enhancement to promote psychological well-being.

Although the facility provides enrichment to the birds, they do not have an environmental enhancement plan in place to promote the overall psychological well-being of the birds at the facility. Exhibitors must develop, document, and follow a
