

Inspection Report

Zootah At Willow Park
419 W. 700 S.
Logan, UT 84321

Customer ID: **329235**
Certificate: **87-C-0057**
Site: 001
ZOOTAH AT WILLOW PARK

Type: ROUTINE INSPECTION
Date: 07-JUL-2015

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

At time of inspection, the facility did not have an up-to-date, written Program of Veterinary Care(PVC) signed by the current attending veterinarian. The facility' s current PVC did not include muntjac, sheep, and reindeer. The PVC must be reviewed, updated, and completed as necessary to accommodate new animals/species, facility changes or changes in husbandry practices. The current attending veterinarian must make a site visit, review the program of veterinary care, and sign and date the forms.

Correct by 07/27/2015

3.125(c)

FACILITIES, GENERAL.

-In a walk-in freezer, multiple bags of food stored for a variety of covered species had a large accumulation of ice covering them with several also being moist/wet to the touch. Facility manager stated that he recently discovered that this walk-in freezer has not been functioning properly and that a repair person had been contacted for service.

-A plastic container used to store dry food for coyotes and foxes had a large opening in the container lid leaving it unprotected from vermin.

Supplies of food must be stored in facilities which adequately protect such supplies against deterioration, molding, or contamination by vermin to ensure the health and well-being of all animals. A system of food storage which adequately protects the supplies of food for all animals must be in place.
