

Inspection Report

Verla Blosser
4409 S. 250th Rd.
Buffalo, MO 65622

Customer ID: **37675**

Certificate: **43-A-4957**

Site: 001

VERLA BLOSSER

Type: ROUTINE INSPECTION

Date: 15-OCT-2014

3.1(c)(3)

HOUSING FACILITIES, GENERAL.

Sec. 3.1 Housing facilities, general.

(c) Surfaces--(3) Cleaning.

***In the French Bulldog housing facility, the corners of the wall had thick cobwebs. The C purlin in the middle of the wall created a ledge that contained dirt and debris. There were bird droppings on the top railings of the chainlink gates. In the English Bulldog hoop barn, there were thick cobwebs on the outdoor portion of the sheltered building. There was also dark oily buildup on the doors, doorways and walls. The outdoor portion of the facility contained plastic type housing units that were dusty and had areas of oily buildups on them. Accumulations of waste products such as fecal droppings, dust, dirt and cobwebs attract pests, insects and vermin which increase the risk of disease to the animals. The licensee must clean these areas housing facility and assure that all surfaces are cleaned as required.

To be corrected by October 28, 2014.

The inspection and exit conference were conducted with the facility representative.
End of report.
