GREAT EDUCATIONAL EXPERIENCES LLS

Type: ROUTINE INSPECTION

Date: 08-JUL-2015

3.127(d)

FACILITIES, OUTDOOR.

There is a lack of adequate perimeter fencing around an enclosure housing one Patagonian Cavy. The enclosure does have a perimeter fence on the east side of the enclosure but is lacking on the other 3 sides. An incomplete perimeter fence does not protect the animal by restricting unwanted animals and unauthorized persons from having contact with the animal. Also, without a complete perimeter fence there is no secondary containment system. A six foot perimeter fence must be provided for the Patagonian Cavy enclosure to keep unauthorized persons and unwanted animals from having contact with the cavy and provide a secondary containment system in the event of escape.

Correct By: December 8, 2015

Inspection and exit interview conducted with owner.
