WILDLIFE IMAGES REHAB.& EDUCATION CENTER

Type: ROUTINE INSPECTION

Date: 04-APR-2016

2.40(x)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Several bottles of expired drugs were found during this inspection. Since it cannot be determined if the use of expired drugs will produce the desired effect they were intended to in a medical application, expired drugs are not considered adequate veterinary care and should not be used. Expired drugs must be removed from current medication and labeled as expired. A regular program of drug inventory and removal of expired drugs should be started and maintained.

Correct by: April 18, 2016

3.125(c)

FACILITIES, GENERAL.

The large metal dry feed storage box, outside of the kitchen, has old spilled dry kibble on the bottom of the container. There did not appear to be any broken bags so this was most likely spilled feed during the process of opening bags for feeding. This spilled feed needs to be cleaned up to prevent the possibility of molding or insect contamination.

A regular schedule of checking and cleaning this feed storage box needs to be in place and maintained.
