Certificate: **34-C-0169**
Site: 002
RICHARD EVOLA

Type: ROUTINE INSPECTION
Date: 27-NOV-2017

3.127(d) REPEAT

FACILITIES, OUTDOOR.

There is no perimeter fence for the camels.

All outdoor housing facilities (i.e., facilities not entirely indoors) must be enclosed by a perimeter fence that is of sufficient height, not less than 6' for non-dangerous species, to keep animals and unauthorized persons out. The fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility, and so that it can function as a secondary containment system for the animals in the facility.

A perimeter fence must be constructed or a perimeter fence variance must be requested.

This inspection was conducted with the licensee and licensees wife and exit interview were conducted with the licensees wife.
