ABE P. MILLER
6730 TR 362
MILLERSBURG, OH 44654

Customer ID: **500709**
Certificate: **31-A-0627**
Site: 001
ABE P MILLER

Type: RE-LICENSE INSPECTION
Date: 04-NOV-2021

3.1(c)(3)

Housing facilities, general.

Several areas in the facility have not been cleaned adequately:

***Most of the enclosures housing large dogs had areas of brown waxy organic material present on the walls which could be scraped away when attempted.

***Roughly half of the self-feeders had a similar brown organic buildup along the underside of the projecting rim where the feed is stored.

*** Roughly half of the primary enclosures had cobwebs present between the bars along the fronts of the cages, as well as a small amount hanging from the ceiling. Additionally, there was dusty build-up along the tops of the inner cages and along the water lines.

Inadequate cleaning can lead to adverse health effects of the animals. Correct by cleaning all surfaces of the housing

Inspection Report

facility, including inside and outside of primary enclosures, areas above and below enclosures and any other adjacent areas as often as necessary to prevent accumulations that may cause health risks to the animals.

3.6(a)(1)

Primary enclosures.

In one enclosure housing 2 adult dalmatians and 1 adult Bernese mountain dog there is an area which has not been maintained in good repair. One wall had an area of excessive chew damage approximately 2' by 3' which exposed the dogs to jagged edges of the PVC boards. Jagged edges are potentially injurious to the animals and enclosures must be maintained in good repair to ensure their wellbeing. Correct by ensuring all surfaces within the primary enclosures are kept in good repair.

This is a 1st Re-License Inspection for a Class "A" license. The inspection and exit briefing were conducted with the facility representative. All items must be in compliance within 2 more inspections or by the expiration of your current license, or the Applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next relicense inspection.

Regulated activity can continue under your existing USDA license until it expires.
