### 2.40(b)(2) REPEAT

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

This was a focused inspection to review the progress of the facial lesions for the singly housed black bear. the facility called another veterinarian to examine the bear. The veterinarian consulted veterinarians at the North Carolina Zoo which recommended to change antibiotics and add additional medication. No diagnostic procedures were performed because there were not adequate methods available.

Facility needs to continue to administer the prescribed medications as indicated by the veterinarian and additional consultants for treatment and diagnostic evaluations to insure the care and comfort of the animal.

The goat enclosure was not inspected at this time and facility is reminded of its correction date of May 15,2015

Exit interview took place at the end of inspection
