JUNIOR DETWEILER

Type: ROUTINE INSPECTION
Date: 23-SEP-2015

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

A young male Rottweiler, ID#32315, was observed with an open wound on the end of his tail at the tail dock area. The wound had a granular appearance around the outer edge and was open, reddened and inflamed in the inner area of the wound. According to the licensee the puppy was held back two weeks ago because of this wound. The licensee stated that he had been putting NuStock on the wound and it would close but then reopen. The licensee has not consulted with a veterinarian for care or treatment on this wound. The unhealed wound could be a sign of a medical condition that requires veterinary care. The licensee must have this puppy evaluated by a veterinarian for an appropriate diagnosis and treatment plan. The licensee must ensure that all animals receive adequate veterinary care at all times.

To be corrected by: 25 Sept 15

3.11(b)(2)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Sanitization of food receptacles

The licensee has two large plastic barrels used for storage of open bags of food. On the inside wall of the food barrels there is an accumulation of a dark sticky substance. On the underside area of the lid of one of the food barrels there appears to be several dark spots which are consistent with fly spat. When questioned as to when was the last time these barrels had been cleaned and sanitized the licensee could not remember. This accumulation of the dark sticky substance and fly spat on the lids could become a disease hazard to the dogs. The licensee must clean and sanitize these food storage barrels and ensure that primary enclosures, food and water receptacles are cleaned and sanitized at least once every two weeks to prevent an accumulation of dirt, debris, food waste, excreta and other disease hazards.

To be corrected by: 28 Sept 2015

Inspection and exit interview conducted with licensee, ACI Stephanie Osborne, and VMO Mary Ann McBride.
