Recordkeeping requirements.

The facility acquired a donation of 2 kittens and 3 adult cats from 2 individuals. The facility representative stated the animals were strays. These cats from non-USDA-licensed individuals were acquired without a certificate stating that the animals were "born and raised" on the person's premise and that "fewer than 25 dogs and/or cats" were sold that year. Without this certification, there is no definite guarantee of the animals' origins and therefore the adequacy of utilizing these animals for teaching cannot be determined. If dogs or cats are acquired from any person not licensed or registered under the Act and not a pound or shelter, the research facility must obtain a certification that the animals were born and raised on the person's premises and that the person has sold fewer than 25 dogs and/or cats that year.

Correct by 20 September 2024.

This inspection and exit interview were conducted with the facility representative.
