### 3.131

#### **SANITATION.**

Item 3.131 b

At the time of inspection the cleaning procedures for the animals was reviewed. It was discovered that the sugar glider cage was only being cleaned with water. Water itself is not a proper way to clean and disinfect cages as required by the regulations.

Licensee needs to contact its veterinarian to determine what methods are appropriate to clean and disinfect to cages.

Correct by 11/28/14

Exit interview conducted at the end of inspection
