Certificate: **55-C-0198**

Site: 001

TOWN OF WINDSOR

Type: ROUTINE INSPECTION

Date: 10-NOV-2020

3.127(d)

Facilities, outdoor.

No 6-foot perimeter fence surrounds the primary enclosures holding the bison, the zebra, and the zebu. A missing perimeter fence can't prevent the escape of the animals contained therein if the primary enclosure fails by serving as a secondary barrier. The perimeter fence provides protection to the animals and public. All outdoor housing facilities must be enclosed by a perimeter fence that is of sufficient height to keep animals and unauthorized persons out. Perimeter fencing 6' high for the bison, zebra and zebu are required per this regulation. The 6' perimeter fence is not required for the traditional domestic farm animals. Correct by or before July 31, 2021.

3.125(a)

Facilities, general.

The back fence line of the enclosure containing many goats, 2 alpaca, 1 cow and 1 zebu has several 1.5 - 2' gaps and is coming apart in several places. This fence cannot securely contain the animals nor protect them from predation. Per this section, the facility shall be maintained in good repair to protect the animals from injury and to contain the animals. Correct by or before July 31, 2021.

This inspection and exit interview were conducted with the facility representative.
