

## Inspection Report

---

UNIVERSITY OF MEMPHIS

Executive Vice President for Research & Innovation  
365 Innovation Drive  
MEMPHIS, TN 38152

Customer ID: **852**

Certificate: **63-R-0006**

Site: 001

UNIV. OF MEMPHIS

Type: ROUTINE INSPECTION

Date: 03-NOV-2022

---

**2.31(e)(3)**

**Repeat**

**Institutional Animal Care and Use Committee (IACUC).**

Protocol #0873 does not include a complete description of the proposed use of animals. The protocol states that euthanasia will be carried out by the PI and describes the method of euthanasia, but does not state when, why, or how many animals will be euthanized. Accurately describing animal usage including determining and describing humane endpoints is important for animal welfare. Correct by ensuring that protocols completely describe the proposed use of animals.

This inspection was conducted with the Associate Director ACE and the IACUC chair. The exit interview was conducted with the Associate Director ACE, IACUC chair, the Attending Veterinarian, and the Senior Associate Director of Research Compliance.
