985 W Parkins Mill Road
Winchester, VA 22602

Customer ID: **2477**

Certificate: **52-C-0038**

Site: 001

WILSON'S WILD ANIMAL PARK

Type: ROUTINE INSPECTION

Date: 09-JUL-2015

3.127(c)

FACILITIES, OUTDOOR.

Drainage

***The top of the enclosure housing 3 tigers is constructed with wood and wire panels with 4x4 openings. The openings allow for rain to come directly into the enclosure. The enclosure is excessively muddy following a heavy rain the night before. Water has also pooled in the left front of the enclosure. Enclosures should be designed to prevent the build-up of water and to rapidly eliminate excess water.

Measures must be taken to prevent the settling of an excessive amount of water. Additionally, a method to rapidly remove excess water from the enclosure must be established and maintained to ensure there are dry areas in the enclosure for the tigers to walk and/or rest. Correct by July 30, 2015.

An exit briefing was conducted with the owner.

This is a focused inspection in response to concerns in a complaint.

This is an electronic version of the Microsoft Word inspection report dated 9 July 2015.

Additional Inspectors

Weiss Lauren, Veterinary Medical Officer
