GILCREASE NATURE
SANCTUARY

Type: ROUTINE INSPECTION

Date: 05-SEP-2024

3.131(c)

Sanitation.

The south side of the llama, hill pen enclosure had an excessive overgrowth of grasses and weeds up to four feet tall in some areas. Some of these weeds are growing into and through the enclosure fencing which limits visual inspection of the enclosure and could possibly obscure any damaged areas of fencing. Additionally, the overgrowth may provide harborage for vermin and other pests. Premises (buildings and grounds) shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in this subpart.

Correct by 09/20/2024.

This inspection and exit interview were conducted with a facility representative.
