Customer ID: 1186
Certificate: 93-R-0006
Site: 002
LOMA LINDA UNIVERSITY

Type: ROUTINE INSPECTION
Date: 14-AUG-2019

3.127(a)

FACILITIES, OUTDOOR.

The outdoor, sheep enclosure did not provide sufficient shade to allow the sheep housed in this area to be protected from direct sunlight. At time of this inspection, the sheep were seen gathering under one available shade structure; however at least six of the sheep could not be comfortably provided with shade. Insufficient shade from direct sunlight may cause overheating or discomfort of the animals. Sufficient shade by natural or artificial means must be provided to allow all animals kept outdoors to protect themselves from direct sunlight.

Correct by 08/23/2019.

This inspection and exit interview were conducted with a facility representative.
