Type: ROUTINE INSPECTION

Date: 16-JAN-2025

2.131(b)(1) Critical

Handling of animals.

During free-flight exhibition, multiple pigeons did not return to the catch cages or returned injured.

March 3, 2024- one domestic pigeon, purple band, never returned after the show.

April 16, 2024- two domestic pigeons never returned after the show.

June 25, 2024- one domestic pigeon, Green 34, returned during show with neck lacerations. The facility speculates a wild raptor attempted to prey upon the bird. The pigeon died from its injuries while receiving veterinary care.

December 11, 2024- one domestic pigeon, Blue 2, never returned after a training flight.

December 28, 2024- one domestic pigeon, Green 6, never returned after the show.

Escaped animals may suffer physical harm, trauma, stress, or death. The facility must address handling to ensure animals are handled as expeditiously and carefully as possible to minimize these risks.

To be corrected from this day, January 17, 2025, forward,

This inspection and exit interview were conducted with a facility representative.
