Type: ROUTINE INSPECTION
Date: 05-OCT-2015

2.40(b)(2)

REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Dachshund with microchip #: 0A01124154 has an excessive amount of brown matter on its teeth, and also the gum line is inflamed and red with several areas with white material and starting to receding exposing the root.

This dog was found during this inspection with a dental disease. The licensee has no documentation that this dog was previously identified or scheduled for veterinary treatment.

Several dogs were found with excessive long toenails. Excessive Long toenails can deform the toes and can be easily get caught and tear and injure the dogs.

It is important to include an assessment of the length of the nails to the daily observation of all animals to ensure the health and safety of the dogs.

The fingernails should be trimmed as often as every individual needs it.

Appropriate methods to prevent, control, diagnose, and treat diseases and injuries must be utilized. The dog listed above must be examined by a licensed veterinarian. Documentation of the veterinarian's assessment, treatment, and plan must be maintained for examination by APHIS officials. All veterinary recommendations must be followed precisely and in a timely manner.

Correct by: Remains uncorrected.

Inspection and exit interview conducted with the licensee.
